An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In the specification, line 5, insert the phrase --now U.S. Patent No. 6,626,970 B2-- after the phrase "filed December 31, 2001" and before the phrase "which claims the benefit of U.S. Provisional Application No. 60/258,674".

Claim 1 allowed.

The following is an examiner's statement of reasons for allowance: None of the prior arts discloses a filter element comprising a support structure wherein the first section including a plurality of wire members, a plurality of form wires, a terminal form wire secured to the first ends of the plurality of elongate longitudinal wire members, a mouth rim secured to the second ends of the plurality of elongate longitudinal wire members and the mouth rim extending beyond a diameter of the form wires in order to secure the first section in an opening in a hanger deck within an air filtration unit, a second plurality of elongate longitudinal wire members, a plurality of form wires having a closed circular shape being positioned inside and perpendicular to the elongate longitudinal wire members, a pair of guide members having elongate U-shape and two generally parallel legs wherein the legs of each guide member is bonded to two of the form wires and extending outwardly and the guide members being adapted to slidably fit within the terminal form wire and to resiliently grip at least two of the first plurality of
